

Market study on Green Shipping Corridors

Björn Garberg

National Coordinator for Domestic and Short Sea Shipping

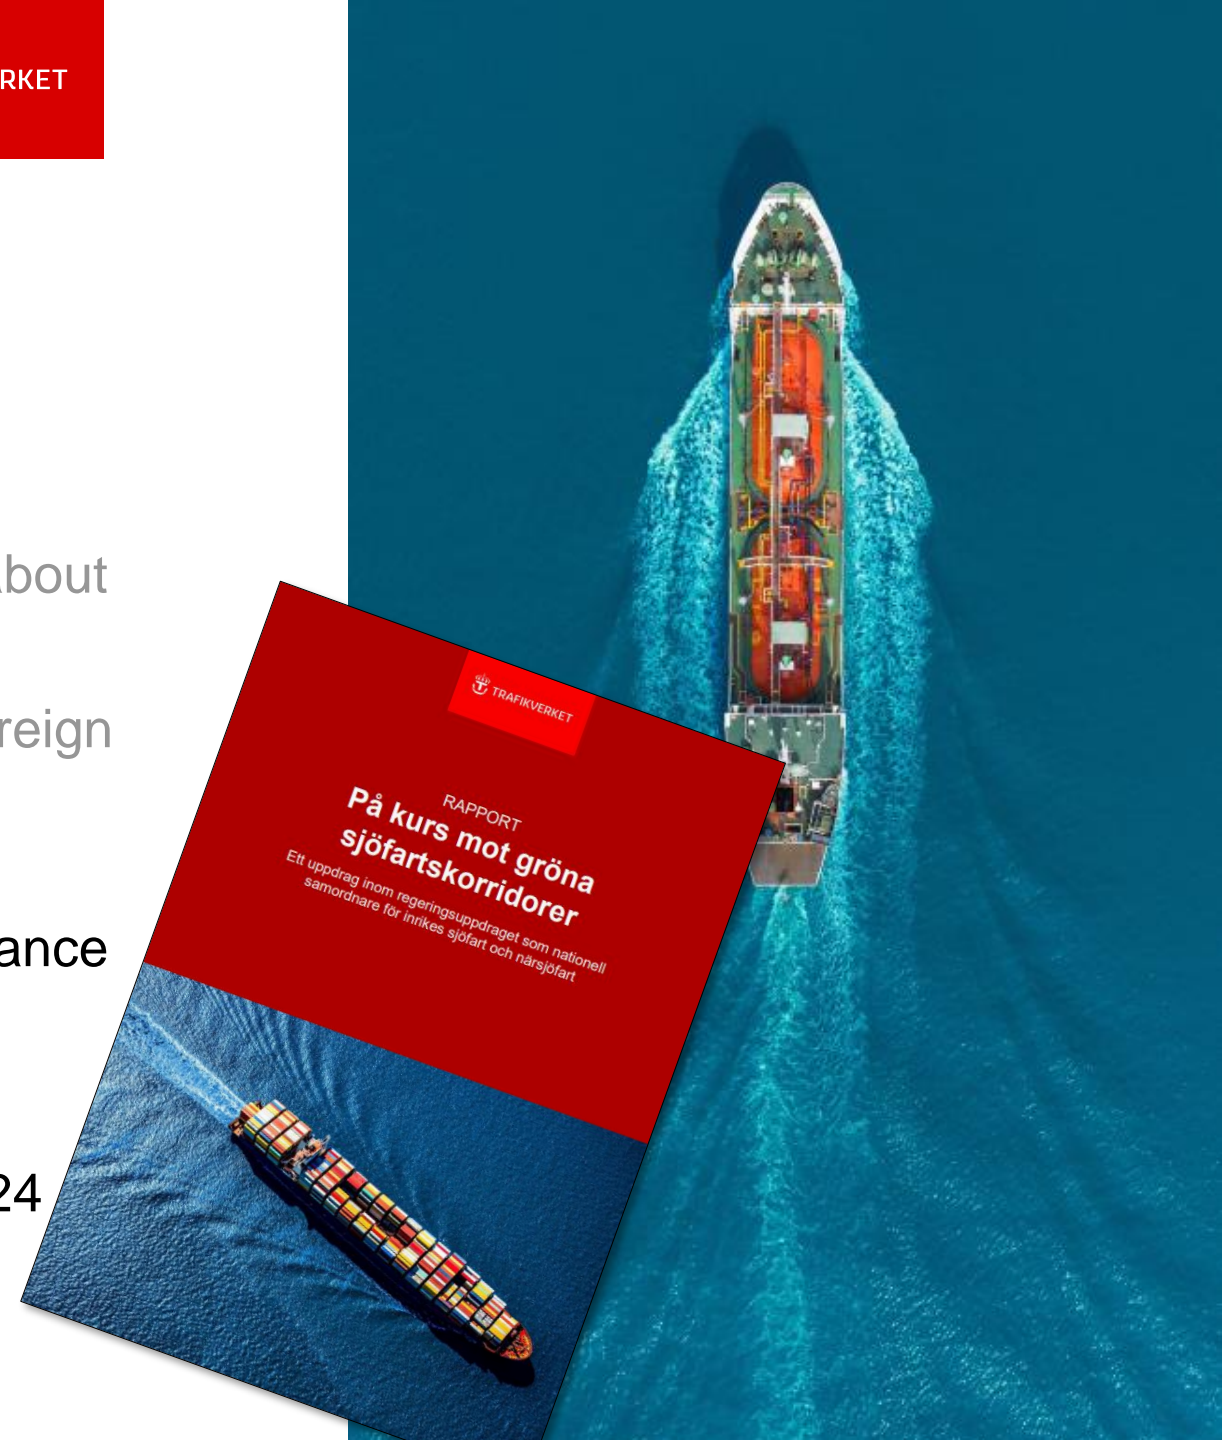

The governmental assignment

1. Dialogue with Swedish ports and authorities about environmental incentives in public fees
2. Mapping of the environmental incentives in foreign ports
3. Investigate and promote the establishment of green shipping corridors in Sweden in accordance with the Clydebank declaration

Deadline the 14:th of October 2022

Part 3 has been extended to the 30:th of June 2024

The dialogue with the industry

- Ports
- Shipping companies
- Cargo owners
- Fuel suppliers

Some findings

- Short- and long term perspective needed
- Supply and demand of alternative fuels a key factor
- Sharing the financial risks is the way to success
- Further coordination necessary
- Incentives might boost the process

How to continue?

- 11 services identified for further dialogue
- Partnership meetings are planned
- But...the picture is changing contiguously

Thank you for listening!
